

Please take action to prevent Sinclair Broadcasting from airing a politically charge, anti-Kerry program just weeks before a hotly contested general election. Airing this film amounts to a political advertisement, given gratis by Sinclair to the Bush campaign -- particularly since the company apparently does not plan to air a similar film with an opposing viewpoing. Please either rule against Sinclair, or leverage it to achieve greater political balance by also airing "Going Up River", or "Fahrenheit 9-11." Thank you.
